ENTTEC Wings

The hardware consoles

Shortcut

Playback

Program

The range of ENTTEC hardware consoles offers an easy to use API for software developers to integrate into their existing products. The front label can be customised to suit the OEM developer. The Wings connect via Ethernet to your PC and thus could even be connected wirelessly or in multiple locations.

ENTTEC Wings

Fast & efficient

► ENTTEC Program Wing

It is designed to allow fast editing of lighting states and creation of cues, palettes, groups, etc. in D-PRO and other PC-based lighting control systems.

► Features

- 62 high-quality Cherry MX keys
- Page up and page down keys for encoders
- 9 window keys
- 25 operational & Function keys
- 19-key numeric keypad
- 4 arrow keys and Backspace
- 3 rotary encoders
- 4-line 20-character LCD Display

Intuitive & rapid

► The ENTTEC Playback Wing

It is an Ethernet-enabled input device designed to be used in conjunction with computer based applications such as D-PRO, Freestyler and others, or as a standalone Art-Net controller.

► Features

- 10 high-quality 60mm faders
- 40 high-quality Cherry MX keys
- Page Up and Page Down keys
- Double 7-segment display
- Large GO & BACK keys

Compact & flexible

► The ENTTEC Shortcut Wing

It is the perfect add on for D-PRO or any PC lighting control software. The wing is Ethernet-based, so that multiple units can be connected in one or many locations, allowing the user to customize layout as desired.

► Features

- 60 high-quality Cherry keys
- Page Up & Page Down keys
- 2-Digit 7-segment LED display
